

## **SPECIFICATION**

- o Amend paragraph beginning at page 1, line 3, as follows:

This application is related to concurrently filed United States Application Serial No. (case Greywall 35-19) 10/789,154, which is incorporated by reference as if fully set forth herein.

- o Amend paragraph beginning at page 1, line 10, as follows:

Carbon particles, such as such as carbon nanotube molecules and carbon fibrils, have an array of properties, including electrical, mechanical, and heat conducting properties, that are highly desirable. However, the particles are relatively short, e.g., the longest ones are on the order of a few microns. Unfortunately, such lengths are generally unsuitable for applications in which the properties of the carbon particles can prove beneficial.

- o Amend paragraph beginning at page 3, line 33, as follows:

Concurrently filed application, United States Patent Application Serial No. (case Greywall-Yurke XXX) 10/789,154, which is incorporated by reference as if fully set forth herein.
